EGG DROP CHALLENGE—STEM Activity

ITEMS RECOMMENDED:

STRAWS

Plastic straws are thin and light supports!

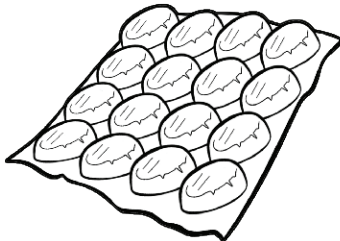

COTTON BALLS

Sponges could also be used for cushioning.

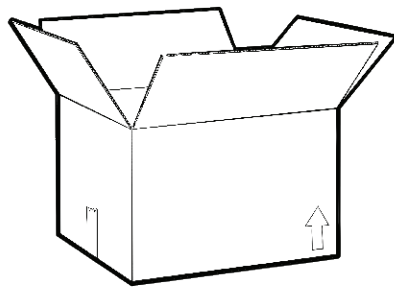

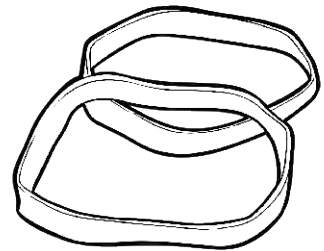

BUBBLE WRAP

Could be used as a cushion for the egg.

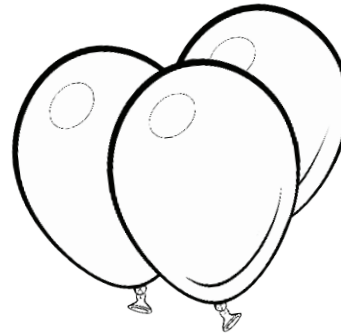

RUBBER BANDS

Joy and Becky used these for their Egg Drop Landing Device.

CARDBOARD

Could be used to cover your egg.

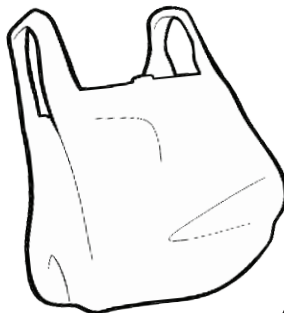

BALLOONS

Could be used as a cushion or to slow the fall of the egg.

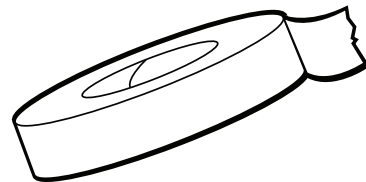

PLASTIC BAGS

These could be used as parachutes!

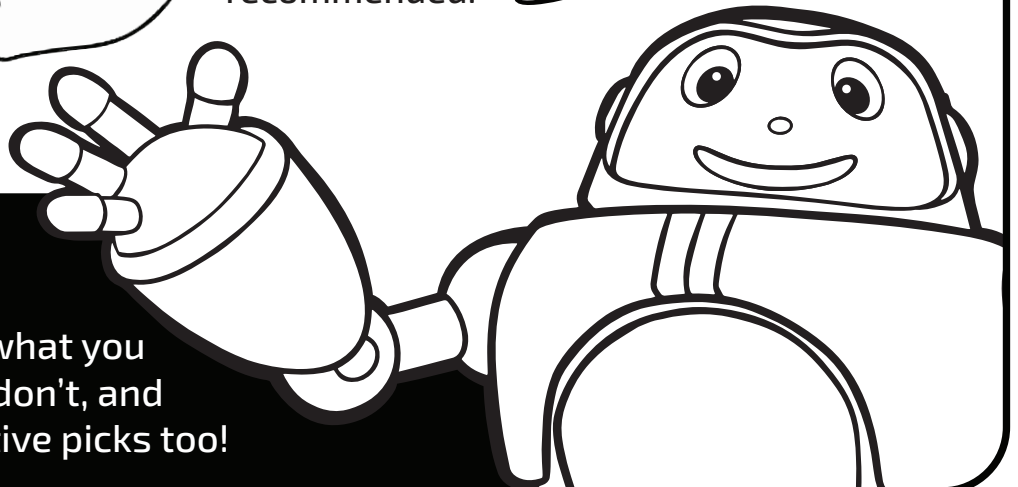

TAPE

Masking or scotch tape is recommended.

BE CREATIVE!

These items are only recommended. Grab what you need, leave what you don't, and toss in your own creative picks too!

Superbook®

EGG DROP CHALLENGE—STEM Activity

The Egg Drop Challenge is to build a device that prevents an egg from breaking when dropped from a tall height.

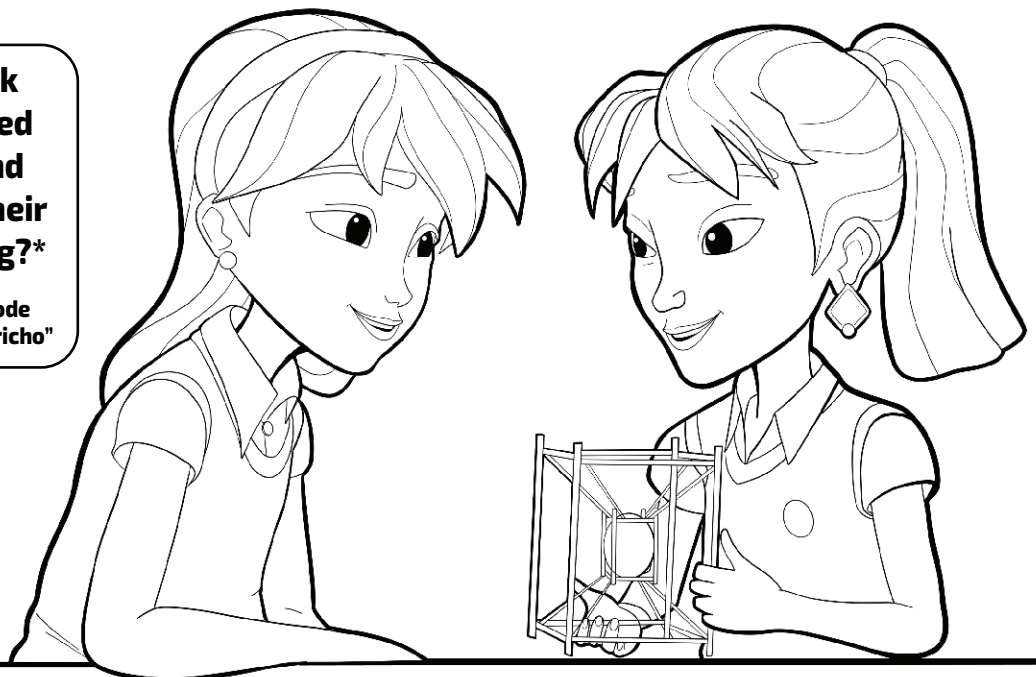

Step 1: Build a creative landing device to protect your egg from breaking. Use the materials to slow the fall or soften the landing.

Step 2: Have an adult drop your egg from increasing heights to test your design. Compete with others to see whose device works the most efficiently!

Step 3: With the force of gravity pulling the egg toward the ground and the force placed on the egg from the sudden stop, think about ways that your landing device works or could be improved upon.

Why do you think Joy and Becky used rubber bands and straws to keep their egg from cracking?*
